

a13  
concl.

monitoring at least one user's input during the dialogue session so as to have the  
monitored input available for analysis; and  
wherein

the guidance on taking notes is based on at least one of the user's inputs  
when the user is working on the subject; and

based on the analysis, the method further comprises the step of guiding at  
least one user back to the subject in the dialogue session when one or more users  
have been distracted from the subject for a duration of time.
